

DIARY NOTES

11 February 1959

DD/S

25X1A9a

1. At the Deputies' Meeting we discussed the briefing schedule proposed for the new Kilday Committee. The Director requested that certain revisions be made and said that we would discuss it again on Friday. (This has been done and the first meeting is scheduled for next Tuesday---Gates has all the dope.) We also discussed the briefing for Mr. Stans on the 24th and the Director agreed that we would have the briefing which [REDACTED] and his Committee have organized and felt that a dry run would not be necessary.

2. [REDACTED] telephoned about a space requirement for the ELINT Laboratory and is sending over a memorandum on this subject. (The memorandum arrived and I turned it over to [REDACTED])

4. I met with Doctors Tietjen and [REDACTED] to discuss [REDACTED]. They advised me that they were going to qualify him for departmental duty only and that there was no reason why he shouldn't be dealt with frankly as one would do with any other employee. (On Thursday I talked to him and gave him a choice of resigning or being put up for selection out. He is to let [REDACTED] know his decision on Monday.
